

The 2024 Farm Stress Summit is an important conference for community leaders and organizations in rural Georgia dedicated to serving the mental health and well-being of rural farmers and their families.

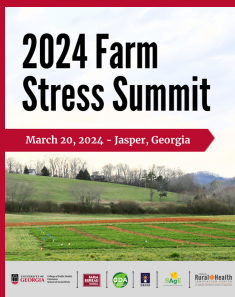

From health care providers and nonprofit organizations to county officials and faith leaders, the 2024 Farm Stress Summit welcomes all who want to further efforts combatting farm stress in our communities. The goal of this event is to learn from each other, connect communities with existing resources, and establish partnerships across organizations.

Key target audiences for this free event include medical providers, counselors, church leaders, Extension agents, Georgia Farm Bureau members and staff, policy makers, lenders, local elected officials, county/city municipal staff, pharmacists, school system personnel, agricultural producers, and agribusiness owners/operators.

Important information:

- The event is on March 20 in Jasper, Georgia
- Online registration is available through March 17
- The website to direct people to learn more: t.uga.edu/9Hk
- The official hashtag is #GeorgiaFarmStressSummit
