Extension is here for Georgia through the storm

Using UGA Extension guidance, each county in Georgia has developed an emergency plan to better prepare for natural disasters.

Growing cities: UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth
Georgia 4-H enrolled 152,040 youths across the state during the 2021-22 school year.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

Cobb County

Cobb and Rockdale County Extension partnered to develop a virtual youth cooking club reaching over 1,500 youth and adults from thirty counties, across six states. This reimagined nutrition education program has impacted nutrition and food safety knowledge, cooking self-efficacy, and family bonding, and has been shared with professionals across multiple states. 4-H youth were also reached through the Adulting 101 series, an educational program that teaches youth valuable life skills, including cooking skills, budgeting skills, time management skills, college preparatory tips, professionalism, and more.
