

Would you like to become an Athens Area Master Gardener?

Established in 1990, the Athens Area Master Gardener Program provides novice and seasoned gardeners with an intensive educational experience in horticulture principles, practices and pest management. Classes are taught by UGA faculty and other subject area experts.

After completing the educational component of the program, participants perform 50 hours of volunteer service in their community before the end of the calendar year. Master Gardener Extension Volunteers answer gardening questions at the ACC Extension office, staff informational booths at farmers markets and local events, conduct plant clinics, help with Plant a Row for the Hungry gardens, assist curators at the State Botanical Garden of Georgia, teach Junior Master Gardener programs at local schools and more.

Question? Contact Laura Ney at Iney@uga.edu
