**5th Grade 4-H Lesson #7 - Inherited Traits**  
Standards: S5L2. Obtain, evaluate, and communicate information showing that some characteristics of organisms are inherited and other characteristics are acquired.

## Bunny Rabbit Genetics

Trait	Allele #1 (Dominant)	Allele #2 (Recessive)	Genotype (Both Alleles)	Phenotype (Allele we See)	Draw Your Rabbit
Body Shape	Round - B	Long & Oval - b	bb	Round Body <b>or</b> Long Oval Body	
Head Shape	Round - H	Triangle - h	HH	Round Head <b>or</b> Triangle Head	
Eyes	Small - E	Large - e	Ee	Small Eyes <b>or</b> Large Eyes	
Ears	Short - R	Long - r	rr	Short Ears <b>or</b> Long Ears	
Nose	Small - N	Large - n	Nn	Small Nose <b>or</b> Large Nose	
Fur	Short & Straight - F	Long & Curly - f	FF	Short Straight Fur <b>or</b> Long Curly Fur	
Tail	Round - T	None - t	Tt	Round Tail <b>or</b> No Tail	

**Evaluate:** Sarah has curly hair and dimples when she smiles, especially when she makes a basket on the basketball court as a right-handed point guard on her team. She also loves to read, likes classical music, and can speak Korean and English. Which traits of Sarah's are inherited? Which traits are learned? \_\_\_\_\_

**Communicate:** How did you make your decision? \_\_\_\_\_
