Deadline to order and submit payment is **Friday, October 30th**. Plant pick-up is **Tuesday, November 10th and Wednesday, November 11th**. Please call or visit the Elbert County Extension Office to place an order. Cash, check, debit and credit cards are accepted. Contact information is on the back.

**Raspberries**

1 gallon: $8

**Caroline**
Fruit are large in size, bright red and well-flavored. Plants are more disease resistant and fruit ripens earlier than most ever bearers.

**Fall Gold**
Fruit are large in size, golden, very sweet and somewhat soft. Plants are vigorous, productive and adaptable to a wide variety of soils. First crop ripens in July. Second crop ripens late August.

**Heritage**
Fruit are large in size, dark red, and very sweet. Plants have vigorous growth habits and adapt well in well-drained soils.

**Blackberries**

1 gallon: $8

**Apache (Thornless)**
Fruit are very large in size with very good flavor and an average sugar content of 10-11%. Fruit ripens over a five-week period with very high yields.

**Arapaho (Thornless) Rubus spp**
The earliest ripening thornless variety. Characteristics of Arapaho are its erect, self supporting canes, good fruit quality, earliness of ripening and its ability to establish a full fruiting row quickly.

When you pick up your plants, you will also receive a packet of information about soil requirements, planting, pruning and maintenance!
**Blueberries**  
1 gallon: $8 | 7 gallon: $25

**Brightwell**  
Fruit ripens in early to mid June through mid July. Berries have a medium size, excellent flavor & a dry stem scar. *Suggested pollinators:* Premier.

**Climax**  
Early fruiting variety. Berries are firm with excellent flavor, good color, very small stem scar. *Suggested pollinator:* Premier.

**Delite**  
Is given its name due to one's reaction after experiencing these excellent quality berries. The Delite is a late-season variety that produces large, firm light blue berries with a light red blush when ripe.

**Premier**  
Ripens early to mid season, usually earlier than other mid season varieties. Fruit are larger in size with excellent color, great flavor and a dry stem scar. *Suggested pollinator:* Brightwell.

**Tifblue**  
Ripens mid to late season. Fruit are medium size with good flavor and an average stem scar. One of the oldest remaining cultivars; released in 1955 by UGA. *Suggested pollinators:* Brightwell.

**Apples**  
5 gallon: $20

**Fuji**  
Fruit are medium in size, yellowish green with red tint skin, white flesh, very crisp, juicy and ripens mid season.

**Granny Smith**  
Large, waxy, green apple that is firm and bruise resistant. Crisp and juicy with white flesh. Superb eating and cooking qualities. Very vigorous and bears heavily annually and early. Self-fertile.

**Honeycrisp**  
Fruit is mottled red over yellow ground color with a very crisp flesh. Recommended pollinator is Yellow Delicious.

**Yellow Delicious**  

**Crabapple**  
5 gallon: $20

**Callaway**  
Pink buds open in spring to white flowers. Flowers are followed by large, bright red crabapples (to 1.5” diameter) that mature in fall and may persist into winter. Flesh is crisp, yellow and mildly tart. Great for jellies, as well as fresh eating. Noted for excellent disease resistance. Grows 15 to 25 feet tall.
**Plums**

5 gallon: $20

**Methley**

Fruit are medium to large in size, reddish purple in color, sweet juicy flesh, and ripen early. Trees have upright growth habit, are well-adapted in most soils, and are good pollinators.

**Santa Rosa**

Fruit are large in size, purplish red in color, yellow flesh, and ripen mid-season. Trees grow very vigorous and are partially self-fertile but will produce better when planted with another variety.

---

**Persimmons**

3 gallon: $20

**Japanese Fuyu**

Fruit are non-astringent, medium to large in size, excellent flavor, oblate in shape, dark orange skin, light orange flesh and ripens late.

---

**Pears**

5 gallon: $20

**Kieffer**

Fruit are large in size, golden yellow in color, white flesh, crunchy, sweet, ripens early to mid season. Trees are hardy, blight resistant and prolific.

**Moonglow**

Fruit are medium in size, yellow in color, white flesh, excellent flavor, soft, and ripens early. Trees have upright growth and are blight resistant.

**Pineapple**

Fruit are large in size, yellow with reddish tint color, white flesh, unique flavor, ripens early. Trees are medium in size, very prolific, and blight-resistant.

---

**Peaches**

5 gallon: $20

**Belle of Georgia**

Fruit are large in size, skin has a light color with a red cheek, excellent flavor, freestone, firm and ripens mid to late season.

**Red Haven**

Fruit are medium in size, bright red skin, yellow flesh, good flavor, freestone, and ripens early. Trees are vigorous growing, self fertile, very prolific.

---

**Figs**

1 gallon: $8 | 3 gallon: $15

**Brown Turkey**

Fruit are medium to large in size, copper color skin, amber to pink color flesh, great flavor, a closed eye and very few seeds. Plants are prolific, often producing fruit twice a year.
**Pecans**

7 gallon: $45

**Pawnee**
Large nut with soft shell. Excellent quality, good yields, ripens early and bears nuts at a young age. Trees are disease resistant and good for high density plantings.

**Elliot**
Large nut with thin shell. Cracks excellent, good flavor, high yields and produces consistently. Trees are very prolific and are disease and scab resistant.

**Caddo**
 Begins bearing at an early age, and production remains high in mature trees has a slender kernel with an attractive gold color. Caddo is an early ripening pecan, with average harvest in beginning of October.
