Gilmer County Extension is seeking someone who is willing to roll up their sleeves and GET THINGS DONE for youth! We are now accepting applications to serve as a part-time AmeriCorps State member with Georgia 4-H in Gilmer county. The individual must commit to a year of service from September 1, 2019 – August 31, 2020 and log at least 900 hours.

AmeriCorps is a federally-funded national service program modeled after the Peace Corps, allowing U.S. citizens to serve their country at home, meet a critical community need, gain professional experience, and earn an education award upon successful completion in the amount of $3,047.50 to pay for tuition or pay back federal loans. The member also receive a modest monthly living allowance ($583.33), and is eligible for loan forbearance.

AmeriCorps positions are temporary service positions, not permanent employment. AmeriCorps members serving with Georgia 4-H provide direct services to youth. At a minimum, the member will facilitate in-school educational club meetings, assist with 4-H Project Achievement, and recruit volunteers. The member may also attend summer camp, develop and lead community service projects, and assist with other direct programming in the county, such as judging teams and state-wide events.

To be considered candidates must apply at: https://www.ugajobsearch.com/postings/99259
Individuals must also create a profile, application, and apply here – https://my.americorps.gov (click on Apply to Serve).
