RE: Show Pig Buying Tips

August 5, 2022

Dear Parents and 4-H'ers:

I'm writing to let you know that it is time to start looking for pigs for the **2023 Grady County 4-H/FFA Market Hog Show**. The show is scheduled for **Monday, January 16, 2023**.

****4-H Age Guidelines - students in the 3rd grade may show a hog.** They still have to be in the 4th grade to exhibit cattle, and 1st grade and up to show sheep and goats.

The Livestock Show Committee approved the official **ownership, possession, weigh, & tag-in deadline** for the 2022 show is **Wednesday, November 2, 2022**. What this means is that by November 2nd you must have ownership/possession of your pig(s) and either myself, Mrs. Robbie, Mr. Alan, or Mrs. Tracy must have tagged your pig(s) at your home or where ever you are keeping your animals.

The situation with getting the pigs sold after the show hasn't changed; as a matter of fact it is becoming more difficult. Our options are limited and buyers only want to pay #1 price for pigs weighing 230 – 280 pounds.

One step to help ensure your pig(s) will be heavy enough on January 16th is to make sure your pigs are heavy enough when you purchase them. I've included a chart listing a few weight guidelines to go by when purchasing your pigs, assuming you are shooting for a 230+ pound or heavier pig. (The official show weight range this year is 220–280 lbs.)

<u>Date of Purchase</u>	<u>Days till ShowADG</u>	<u>Minimum Wt. to Buy</u>	
September 1	136	1.5 lbs/day	26 lbs.
		1.75 lbs/day	- lbs.
September 15	121	1.5 lbs/day	48 lbs.
		1.75 lbs/day	18 lbs.
October 1	106	1.5 lbs/day	71 lbs.
		1.75 lbs/day	44 lbs.
October 15	91	1.5 lbs/day	93 lbs.
		1.75 lbs/day	71 lbs.
November 1	75	1.5 lbs/day	117 lbs.
		1.75 lbs/day	99 lbs.
November 2	73	1.5 lbs/day	120 lbs.
		1.75 lbs/day	102 lbs.

What this chart is telling you is that by **November 2nd** your pigs need to weigh a minimum of 120 pounds (at 1.5 lbs./day ADG) in order to make the minimum "suggested" show weight of 230 pounds on January 16th.

Pig's Birthdate: A pig's birthdate can also be a deciding factor if it will make show weight. Today, judges want pigs that have that "mature, blown-out" look. To get that "mature" look judges are wanting, you may want to consider purchasing pigs that are a little older than what you may be used to purchasing; pigs possibly born the 1st week to 10 days in July. But be aware if you purchase pigs this old, you will have to monitor their weight closely and probably have to hold them towards the end of the growing season.

Other factors to consider:

- Keep your pigs healthy – listen for coughing, watch for signs of your pig limping, de-worm your pig monthly during the growing season
- Keep your pigs warm and dry during the cold winter months
- Keep plenty of fresh water in front of your pig at all times
- Make sure your pig has access to the correct amount of fresh, high quality show pig feed. According to your pig's body type, this feed could range in protein levels from 16% to 18%.
- Call me to check your pig's weight a couple of times during the growing season. We can use the scales to track your pig's progress.

If you need assistance locating your pigs, please let me know ASAP. I will be glad to help in any way I can. If you are locating your own pigs, local breeders you can contact are:

County Grown Eligibility: The Livestock Show Committee voted to transition the "Homegrown" division into a "County Grown" division. That means any litter of pigs that were born & raised in Grady County are eligible for the County Grown class. It simply means more opportunities for pigs born & raised within the county. If your pig was born & raised in Grady County, please make your 4-H Agent or FFA Advisor aware of this at tag-in.

Double-entering pigs for County & State Show: This year, you will again be able to double-enter a pig for our County Show and the State Show. You will be allowed to take your double-entered pig home after the County show, have it blood tested, and then take the same pig to the State Show in Perry the February 22nd – 25th. This way you can participate in the State Show without technically having to purchase a second set of pigs. It is suggested that pigs weigh below 250 pounds at the County show in order to make weight a month later at the State Show without having to severely hold them off feed.

If you know of someone new who wants to show this year, please pass this information on to them or give me a call and let me know who they are so I can do so. If you have any questions, please give me a call at 377-1312 or my cell phone number is 221-8286.
