

Bug Hunt

Discover the insects that live in your own backyard. Did you know your backyard is home to many living things? Take a walk around your yard and see who lives there!

⇒ Take a picture of the insects you find

⇒ Research them online and discover as much as you can about them

Use the following chart to record interesting facts about the insects you find...are they pests or beneficial, what do they eat, how do they eat

** Write a short paragraph to describe your favorite insect.

Make a short presentation about your journey and share with your family

Insect	Pest or Beneficial	Type of Mouthparts (sucking/ piercing, chewing, sponging)	Habitat	Diet	Life Cycle
