WHAT IS DPA?

Georgia 4-H Project Achievement empowers young people with skills for a lifetime. Students choose a project area of interest, research the topic, and write and present a presentation. 4-H'ers develop leadership, creativity, public speaking, record keeping, and other skills. As students become older, a record keeping component that promotes independent thinking, research and implementation is added. Cloverleaf and Junior 4-H'ers, 4th - 8th graders, begin competition in their school or county and advance to the district level. Senior competitions (9th-12th grade) encourage youth to become more involved in their project areas and advance to the state and national levels.
