Family & Consumer Science (FACS)

McDuffie County Family and Consumer Sciences Agent, Allison Eaddy, holds a monthly Health and Wellness program for both City of Thomson and McDuffie County employees. June’s topic was, Dining Out. Allison spoke on how to eat healthy while dining out and gave participants the necessary tools to help make healthy choices. A total of 79 participated in this month’s program, with some of the participants stating that, “very informative and enlightening as well as motivation to make better choices”.

The City and County Health and Wellness Program will be the week of August 22nd.

We’re looking for volunteers!!

If you’ve got experience working with youth, a natural talent for instruction, boundless creativity, & over 18 y/o you should join! Must be able to pass background check.

As a volunteer you will:
- assist office staff & other volunteers with courses and activities
- mentor children in the program
- oversee several small-scale & large-scale activities over the summer
- become a certified coach for one of our teams
