

UNIVERSITY OF GEORGIA
EXTENSION

Baker County

Baker County Extension had a successful year in 2024 with a record-breaking number of 13 4-H'ers who experienced a week-long summer camp. The Family and Consumer Sciences agent partnered with Sowega Council on Aging during a resource fair for approximately 150 senior adults, promoting Drink Water Georgia by providing water bottles and fruit-infused water to attendees. Baker County continues to have high peanut, corn and cotton yields following UGA educational programs. UGA holds meetings and on-farm demonstrations to deliver the latest UGA research directly to growers. Baker County continues to expand its established commercial blueberry production using the programming support from UGA Extension.

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,756,355 face-to-face contacts in 2024. Of these, 200,067 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

An Equal Opportunity, Affirmative Action, Veteran, Disability Institution.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 193,518 youths across the state during the 2023-24 school year.

2025 FAST FACTS

UGA Extension translates the science of everyday living for families, farmers and communities to foster a healthy and prosperous Georgia.
