

# Berrien County

Berrien County is a large producer of peanuts, growing about 22,000 acres annually at a value of \$24 million. The decision on when to dig is difficult for growers, as being too late can result in up to 30% yield reduction. The Berrien County Extension agent evaluated 411 peanut samples for proper digging date, helping our county farmers maximize yield through optimum crop maturity. Over the past 16 years, Berrien County 4-H and the Berrien Youth Livestock Association have partnered with Berrien County Board of Commissioners to improve local livestock facilities (\$150,000+) while simultaneously strengthening social capital in the community and engaging youth in positive livestock-exhibition experiences.

2025 Georgia Ag Impact Report  
UGA Center for Agribusiness and Economic Development

## A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,756,355 face-to-face contacts in 2024. Of these, 200,067 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

## Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

## Committed to Georgia's youth.

Georgia's 4-H enrolled 193,518 youths across the state during the 2023-24 school year.

## Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

# 2025 FAST FACTS
