

UNIVERSITY OF GEORGIA
EXTENSION

Butts County

The Butts County Extension Program impacts local youth and the community by offering diverse educational opportunities. We provide art, cooking, and engineering classes that foster creativity, life skills, and problem-solving abilities. Our commitment to STEM education extends to all three public elementary schools, ensuring students develop critical thinking skills early. Additionally, we support agriculture education through programs such as egg candling certification, nuisance wildlife management, and pesticide credit classes, equipping farmers and landowners with essential knowledge. Though these programs, we empower the next generation of innovative thinkers, responsible citizens and agricultural stewards.

UGA Center for Agribusiness and Economic Development

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,756,355 face-to-face contacts in 2024. Of these, 200,067 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 193,518 youths across the state during the 2023-24 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.
