

UNIVERSITY OF GEORGIA
EXTENSION

Catoosa County

Catoosa County Agriculture and Natural Resources supported citizens and the agricultural community with educational efforts throughout the county. ANR provides classes, farm and site visits, commodity meetings, field days, and testing of soil, forage and water samples along with interpretation of results. More than 1,000 Catoosa County 4-H'ers participated in public speaking, livestock projects, horse projects, judging teams, community service and summer camps. The Catoosa County PLARN project distributed plastic mats and pillows to many homeless citizens in the Chattanooga Valley area. Catoosa County Extension continues to serve youth in the community with opportunities to make a difference in the lives of those less fortunate.

2025 Georgia Ag Impact Report
UGA Center for Agribusiness and Economic Development

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,756,355 face-to-face contacts in 2024. Of these, 200,067 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

An Equal Opportunity, Affirmative Action, Veteran, Disability Institution.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 193,518 youths across the state during the 2023-24 school year.

2025 FAST FACTS

UGA Extension translates the science of everyday living for families, farmers and communities to foster a healthy and prosperous Georgia.
