

UNIVERSITY OF GEORGIA
EXTENSION

Fannin County

In 2024, more than 400 fourth- and fifth-grade students have learned by doing with hands-on activities in Fannin County 4-H. Students learned about science, public speaking, community service, and citizenship through in-school lessons. Public speaking through Project Achievement is taught in each classroom. Students are given the opportunity to participate in 4-H outside of school hours in a variety of judging team contests and livestock showing opportunities. These programs allow students the opportunity to practice their critical thinking, decision making, and reasoning skills. Community support of the program is growing, with over \$6,000 donated last year to help send youth to summer camp at a reduced cost.

2025 Georgia Ag Impact Report
UGA Center for Agribusiness and Economic Development

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,756,355 face-to-face contacts in 2024. Of these, 200,067 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 193,518 youths across the state during the 2023-24 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.
