

UNIVERSITY OF GEORGIA
EXTENSION

Year in Review 2022

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. Extension had 1,652,159 in-person contacts in 2022. Of these, 187,835 contacts addressed health and wellness topics, and 141,401 related to urban agriculture.

Extension is committed to helping rural Georgia farmers and families thrive.

UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough.

Extension is here for Georgia through the storm

Using UGA Extension guidance, each county in Georgia has developed an emergency plan to better prepare for natural disasters.

Growing cities: UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth
Georgia 4-H enrolled 152,040 youths across the state during the 2021-22 school year.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

Fayette County

Pollinators are essential to our ecosystem but are often misunderstood. Utilizing the Pollinator Trail established in 2017, Master Gardener Extension Volunteers conducted the 2022 pollinator census at three elementary school gardens. 367 youth learned the importance of pollinators, identification, and goals of the pollinator census. Also, programs were conducted at two public sites in which 13 adults contributed to the census. The Fayette County Agriculture Agent and the Pollinator Trail Volunteer Coordinator are developing educational programs to pilot in 2023 to elementary schools regarding pollinators.
