

UNIVERSITY OF GEORGIA  
**EXTENSION**

## Forsyth County

Summertime outdoor watering increases household water use by up to 60% and strains county water resources. Partnering with the county water department, Forsyth County Extension delivered eight 2.5-hour classes informing 112 county residents about water-conserving landscape practices, stormwater management and harvesting rainwater for landscape irrigation. Participants received a new, 50-gallon rain barrel and a UGA Extension rain gauge. All program participants reported making at least one change in landscape practices to conserve water, including measuring rainfall to guide irrigation decisions and irrigating from the rain barrel. These measures potentially reduce municipal water usage by several thousand gallons each month.

2025 Georgia Ag Impact Report  
UGA Center for Agribusiness and Economic Development

### A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,756,355 face-to-face contacts in 2024. Of these, 200,067 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

### Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

### Committed to Georgia's youth.

Georgia's 4-H enrolled 193,518 youths across the state during the 2023-24 school year.

### Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.
