Extension is here for Georgia through the storm

Using UGA Extension guidance, each county in Georgia has developed an emergency plan to better prepare for natural disasters.

Growing cities: UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth
Georgia 4-H enrolled 152,040 youths across the state during the 2021-22 school year.
