

UNIVERSITY OF GEORGIA
EXTENSION

Jeff Davis County

Jeff Davis County has two rivers and 43,300 acres of row crops. County agents implemented a series of events for youth to promote environmental and STEM (science, technology, engineering and math) education. These educational opportunities ensure youth are exposed to positive environmental behaviors and a passion for STEM. Jeff Davis County has more than 4,000 acres of hay and pastureland, and produces approximately 3,500 cows a year. Improper cutting of hay, along with management and pest issues can reduce yields and cost producers money. Over the past two years, the agent has partnered with a local business to implement an evening hay/forage meeting for producers, which has attracted 102 people from nine different counties and two states.

\$113,393,482

Top commodities:

Broilers
Cotton
Peanuts

2025 Georgia Ag Impact Report
UGA Center for Agribusiness and Economic Development

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,756,355 face-to-face contacts in 2024. Of these, 200,067 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 193,518 youths across the state during the 2023-24 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

An Equal Opportunity, Affirmative Action, Veteran, Disability Institution.
