

UNIVERSITY OF GEORGIA  
**EXTENSION**

# Twiggs County

In 2024, Twiggs County Extension, in collaboration with Fort Valley State University and UGA Extension, provided programs in youth development, agriculture, and family sciences. The 4-H program, led by FVSU, engaged students through meetings, leadership activities, and virtual programs in health, fitness, and financial literacy. Family and Consumer Sciences, also led by FVSU, offered nutrition education, food drives, and wellness resources in partnership with local organizations. The Agriculture and Natural Resources program, led by the shared Bleckley-Twiggs County ANR agent, provided farmers with recommendations on crop production, pest management, and lawn care. These efforts continue to strengthen agriculture, youth development, and community well-being.

2025 Georgia Ag Impact Report  
UGA Center for Agribusiness and Economic Development

## A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,756,355 face-to-face contacts in 2024. Of these, 200,067 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

## Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

## Committed to Georgia's youth.

Georgia's 4-H enrolled 193,518 youths across the state during the 2023-24 school year.

## Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.
