Talbot County

Last year several programs were developed in response to the needs assessment done for Talbot County 4–H students. From this activity a Summer Fitter Me program was created. Community service projects, summer camp fundraisers, various STEM activities, arts and craft programs and language art projects are other outcomes. Collectively these activities raised over \$4,000 for Talbot County 4–H. The funds supported special office programs, taking students to District Project Achievement as well as sending nine students to Cloverleaf Camp, three students to Jekyll Island Junior Camp and two students to Rock Eagle Senior Camp. 4–Hers participated in activities that provided learning experiences in healthy living, agriculture, STEM, and civic engagement.

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,808,305 face-to-face contacts in 2023. Of these, 170,771 contacts addressed health and wellness topics., including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 173,505 youths across the state during the 2022-23 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

2024 **FAST FACTS**

UGA Extension translates the science of everyday living for families, farmers and communities to foster a healthy and prosperous Georgia.
