

Pesticide Clean Day Collection Event

Mitchell County Stadium Camilla, Ga. February 10, 2021
45 Industrial Blvd. 9:00am to 3:00pm

Georgia Clean Day is a program that gives everyone an opportunity to discard old, unusable, or cancelled pesticides to a hazardous waste contractor for disposal. Pesticides in leaking containers or disposed of improperly may cause environmental damage by contaminating water supplies or harming people and wildlife. Some pesticides that have been used in the past are now in need of proper disposal. Participation in the Clean Day Program remains free of charge to all private and commercial applicators with the understanding that the event is designed / intended for farmers, lawn care, golf courses, and pest control companies. The Georgia Department of Agriculture will be requiring **pre-registration** for the event. For more information about the event please contact your local extension agent, visit our website <http://agr.georgia.gov/georgia-clean-day.aspx> or contact Rick Hayes, coordinator for the event. ricky.hayes@agr.georgia.gov (Office: 404-656-4958) (Cell: 404-535-1614)

This is an excellent opportunity to dispose of pesticides you have been holding because you had neither an economical or legal means to dispose of them. Canceled and suspended pesticides by definition cannot be used and must be disposed of, often as hazardous waste. Benefits to participate in this program are:

1. No disposal fees for those who participate in the program.
2. The disposal contractor secures all permits and approvals.
3. Disposal contractor takes possession of the waste and thereby becomes the generator.
4. All materials eligible for destructive incineration will be destroyed.
5. Minimization of ongoing liabilities from continued storage of these wastes on your property.

All canceled, suspended, unusable and unlabeled materials classified as pesticides may be turned in for collection. Please refer to the brief list below to determine what types of materials will or will not be accepted at the event. Please list all pesticides to be turned in on the pre-registration form in order to estimate types and volumes to be collected. Any pesticides without a brand name, trade name, or active ingredient on the label may require analysis to determine the contents.

ACCEPTABLE MATERIALS

Insecticides
Growth Regulators
Fungicides
Harvest Aid Chemicals
Nematicides
Bactericides
Herbicides
Miscellaneous pesticides

EXCLUDED MATERIALS

Compressed Gases
Solvents
Paints
Antifreeze
Motor Oil
