“Simply stated, pest management is problem solving. It involves the collection of information, analysis of the data and development of a strategy to resolve the pest problem”

Richard D. Kramer
 Handbook of Pest Control, 9th Ed.

Time	Location	Topic	Instructor
9:00	Student Learning Center	The Five Tenets of IPM	Dr. Brian Forschler, Department of Entomology, University of Georgia, Athens
9:45		Inspections: The Cornerstone of IPM	Forschler
10:30		Break	
10:45		Introduction to the Georgia Department of Agriculture and Pesticide Use Regulations	Ms. Janet Bunn, Georgia Department of Agriculture, Atlanta
11:30		Pesticide Use Record Keeping Requirements	Mr. Kevin Hancock, Georgia Department of Agriculture, Atlanta
12:15	Outdoor Patio	Lunch (provided)	
1:00	Blue Team: Training Facility	Pests of Home Kitchens & Regulatory Requirements and Restrictions on Pesticide Use in and Around Homes	Dr. Daniel Suiter, Department of Entomology, University of Georgia, Griffin; and Bunn & Hancock
	Red Team: Flynt Building, Room 301	Insect ID Lab: Key Pests Found Inside and Outside Georgia Homes	Lisa Ames, Department of Entomology, University of Georgia, Griffin
2:00		Groups Switch	
3:00		Course Evaluation and Course Credit	
3:15		Adjourn	

About the Instructors

Ms. Lisa Ames is Director, Department of Entomology, University of Georgia Insect and Weed Diagnostics Laboratory. Ms. Ames supports pest management professionals, county extension agents, and homeowners by providing accurate identification of pest insects and weeds and, where appropriate, providing suggested control measures. She is co-author of several of UGA's publications on urban pests, including *Stored Product Pest in the Home* (bulletin #1378) and *Management of Pest Insects in and Around the Home* (bulletin #1412). She is an expert on Georgia spiders.

Ms. Jan Bunn has been with the Georgia Department of Agriculture since 1996. She is currently a Field Agent in south metro Atlanta. Jan spent 6 years in the Department's main office in Atlanta before transferring to the field. She is certified in Wood Destroying Organisms and Household Pest Control in the state of Georgia.

Dr. Brian Forschler is Professor, Department of Entomology, University of Georgia in Athens, GA. Dr. Forschler provides support for the pest control industry in Georgia and the U.S. through his development of a comprehensive research program on the biology and management of subterranean termites. Dr. Forschler also teaches a course titled *Biology and Management of Urban Pests*.

Mr. Kevin Hancock has been with the Georgia Department of Agriculture since 1998, and has worked as a Structural Field Agent. He received a B.A. in Biology from LaGrange College and a M.S. in Biology from Georgia Southern University. Kevin is certified in the categories of Wood Destroying Organisms and Household Pest Control in the state of Georgia.

Dr. Daniel Suiter is Professor, Urban Pest Management Extension, Department of Entomology, University of Georgia in Griffin, GA. Dr. Suiter coordinates the training activities of the Structural Pest Control Training Center. Dr. Suiter provides support for the pest control industry in Georgia and the U.S. through his development of a comprehensive extension and research program on the biology and management of pest ants.
